

Dr. DeBakey is a medical pioneer in the area of cardiac surgery, which is his expertise. His career is highlighted by a number of "firsts." While still a student, he invented a roller pump for blood transfusions. He performed the first successful coronary bypass; he was the first to successfully use a partial artificial heart; he supervised the first successful multi-organ transplant and then led the way for telemedicine with the first demonstration of open-heart surgery broadcasted overseas by satellite.

Mr. Speaker, this list represents only a snapshot of Dr. DeBakey's service. He also was the first president of Baylor College of Medicine where he developed the fellowship and residency programs at his namesake Department of Surgery. Today, Baylor is one of the jewels of the Texas Medical Center, in large part due to Dr. DeBakey's leadership, and has been the site of countless medical miracles for patients from Texas and around the world. A true testament to Dr. DeBakey's impact is the admiration he has earned from the Houston community, more than 60,000 members of which count Dr. DeBakey as their physician.

Internationally, Dr. DeBakey has been recognized and honored by well over a dozen governments and even inducted into the Academy of Athens, a society founded by Plato. His many awards include the U.S. Army Legion of Merit and the Presidential Medal of Freedom awarded by President Johnson and the National Medal of Science awarded by President Reagan.

I can think of no physician better suited for the Congressional Gold Medal, and I encourage my colleagues to join me in supporting this bill to bestow that honor upon Dr. DeBakey.

Mr. CULBERSON. Mr. Speaker, I yield back the balance of my time.

Mr. AL GREEN of Texas. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas (Mr. AL GREEN) that the House suspend the rules and pass the bill, H.R. 1154.
